

APRIL FOOLS JOKE 2013 GOVERNMENT FINANCIAL MISMANAGEMENT

The Voice from the Pavement - Peter Adamis 1 April 2013

Is this an April fool's joke on the Australian people. First we are told by a previous Labor government the importance of savings and we the public agreed that we need to be also fiscally responsible for saving funds to cater for our lives later in life.

Now we are told that although our savings are safe, changes are needed to be made under the disguise of taxing the higher income rollers and/or spin words to that effect. Whom are we to believe. Methinks it's an "April Fool's Joke", straight after a pseudo leadership battle which appears was designed to take away the spotlight from more pressing problems.

We the public are foolish to think that this current government is governing for all the people of this country. One only has to look at the financial mismanagement of our resources, savings, pre-government surpluses, decline of our defence capabilities, the so called carbon tax and so forth.

People are waiting in anticipation as the election date looms near. It matters not what side of politics one belongs to for during the term of this Julia "Lizzard" and Wayne "Pterodactyl" Labor government this country's debt has risen.

Now we are heading towards a 20 billion budge shortfall. What a joke. This latest piece of insider new about rifts in the Labor ranks is nothing new but it begs to be monitored if not for the sake of our families and in the inters of the nation. What turn-up for the books, a real beauty of an "April Fool's Joke",.. What will the Labor spin doctors think of next in their rhetoric build up to the Federal election?

Many years ago during the time of Whitlam, "IT WAS TIME, now under the Julia "Lizzard" and Wayne "Pterodactyl" Labor government "ENOUGH IS ENOUGH" is the catch cry. Those who are curious may find the articles below of interest.
